

General Councilor

Rome, October 21st 2019

Dear Director,

After the success of the 9 editions of **LSdreams**, I am delighted to write to you today to announce that the Lasallian University Campuses in RELEM (Lasallian region of Europe and the Middle East) have already launched the **10th edition of the contest**.

The intention of the LSdreams' project is to **encourage the creative and talented young people of our Lasallian Schools** in Europe and the Middle East to work in cooperation, and develop new **ideas in favour of a more environmentally, economically and socially sustainable planet**. The project aims to promote innovative ideas in six possible areas: **Engineering, Business Management, Architecture, Health, Digital Arts, Animation & VFX and Education**. The contest is opened to pre-university students in our Lasallian Region. Students from participating schools are invited to develop their idea under the supervision of a **tutor who will assume the role of ambassador** in their center, they can work in teams formed by a maximum of three students from the same center or in collaboration with two teams from different centers of the same country or from other countries.

The 10th edition presents **substantial news** regarding the previous editions. First, the organization wants to raise awareness of challenges related to any of the **17 UN Sustainable Development Goals**.

The awards consist of participation in the **International Summer School of Barcelona or Madrid**. All winners, together with their tutor, can participate in one of the Spanish University campuses of La Salle.

I would be grateful if you would make this information available to teachers and tutors in your Centre who might be interested in promoting this competition with their students.

Further information can be accessed online at <http://lsdreams.lasalleuniversities.net/> where you can register and access the contest methodology and bases or by email at LSdreams@lasalleuniversities.net.

I thank you in advance for your cooperation and support of this **international educational project**, promoting creativity, dialogue, collaboration and friendship.

With best wishes,

Brother Aidan Kilty

General Councillor for the RELEM Region
